Levels 6 and below

1. Unless otherwise agreed by the RFU, the position of a Club at Levels 6 and below shall be established by awarding two League points for a win and one point for a draw. In the case of equality, positions shall be determined on the basis of match points scored. A Club with a larger difference between match points for and match points against shall be placed higher in a League than a Club with a smaller difference between match points for and match points against. Should two Clubs have the same number of Competition points and the same match points difference, the Club having scored more match points 'for' shall be placed higher in the League than the Club having the lesser number of match points 'for'. In the event of the match points 'for' still being unable to establish the position of two Clubs, and if the winning of the Competition or promotion or relegation is involved, the Club which has won the highest number of League Matches shall be placed higher. If this does not establish the position then the Club that has won the most matches, excluding its first League Match of the season, then its second League Match, until it can be established which is the higher placed Club.

Levels 3-5

2. At Levels 3-5, the position of a Club shall be established by awarding four League points for a win and two points for a draw. In addition, one bonus point will be awarded to a team:
 - (i) on each occasion it scores four or more tries in a League Match; and
 - (ii) on each occasion it loses a League Match by seven points or less.

If two or more Clubs have the same number of League points at the end of the Season, final league positions shall be determined firstly by the number of wins achieved and then on the basis of match points scored. A Club with a larger number of wins in the League shall be placed higher than a Club with the same number of League points but fewer wins. If Clubs have equal League points and an equal number of wins in the League then a Club with a larger difference between match points 'for' and match points 'against' shall be placed higher in the League than a Club with a smaller difference between match points 'for' and match points 'against'. Should two Clubs have the same number of League points and an equal number of wins and the same match points difference, a Club having scored more match points 'for' shall be placed higher in the League than a Club having the lesser number of match points 'for'. If this still does not establish the positions then the Clubs involved shall be ranked according to the number of matches won, excluding the first League match of the season. If necessary this process shall be extended to exclude the second match, third match and so on until the final positions are established.
